## **ADMINISTRATIVE RECORD FOR OPERABLE UNIT NO. 3 RSR CORPORATION SUPERFUND SITE**

### **INTRODUCTION**

The United States Environmental Protection Agency ("EPA") has compiled this Administrative Record for Operable Unit No. 3 ("OU No. 3") of the RSR Corporation Superfund Site ("RSR Site") pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. Section 9601 et seq. ("CERCLA"), the National Oil and Hazardous Substances Pollution Contingency Plan ("NCP"), 40 C.F.R. Part 300, Subpart I, and in accordance with OSWER Directive Number 9833.3A-1, "Final Guidance on Administrative Records for Decisions on Selection of CERCLA Response Actions." December 3, 1990. Documents that are non-privileged, non-confidential, and relevant are placed in the Administrative Record for OU No. 3 and listed in the Administrative Record for OU No. 3.

Documents are added to the Administrative Record and listed on indexes as they become available. Hard copies of the documents and indexes are maintained at 3 repositories, including the West Branch of the Dallas Public Library located within the RSR Site.

Because of the large size and the different characteristics of the RSR Site, EPA has divided the RSR Site into 5 OUs. OU No. 3 consists of 3 former disposal areas including 2 municipal landfills and 1 lead slag pile area. EPA has been conducting investigations and will make decisions for each OU separately. Therefore, a Final Administrative Record for each OU will be prepared as EPA makes final response action decisions for those OUs.

### **ORGANIZATION OF THE ADMINISTRATIVE RECORD FILE FOR OU NO. 3**

The Administrative Record for OU No. 3 ("AR File for OU No. 3") consists of a collection of documents that EPA is considering or relying on to make response action decisions at OU No. 3. Hard copies of the documents included in the AR for OU No. 3 are predominately arranged in chronological order and have been placed on the shelf at the 3 repositories. Each page of every document has been stamped with a six digit number called a Document Number. Documents listed on the index can be accessed by locating the appropriate Document Number on the shelf. The AR File for OU No. 3 index includes:

**Document Number** - The sequential number stamped on each page showing where the document is located on the shelf.

**Document Date** - The date the document was published or released. "Undated" means no date was recorded.

**No. of Pages** - Total number of printed pages in the document, including attachments.

**Author** - Name and title of the originator.

**Company/Agency** - Originator's affiliation.

**Recipient** - Name, title, and affiliation of the recipient.

**Document Type** - General identification, e.g., Correspondence, Remedial Investigation Report, Record of Decision, etc.

**Document Title** - Descriptive title or synopsis.

In addition, certain documents are incorporated into the AR for OU No. 3 by reference. First, EPA has prepared a Final General Administrative Record Index for the RSR Site that contains other materials related to the RSR Site as a whole. This document also has been included in the AR for OU No. 3 as an actual document with documents listed therein incorporated by reference. Second, EPA guidance and policy documents, which are referenced but that have not been included as separate documents, as well as, documents listed on bibliographies also are incorporated into the AR for OU No. 3 by reference.

For more information about the AR for OU No. 3, please contact Mike Barra, Region 6 attorney, at 214/665-2143, Ann Schober, Project Manager, at 214/665-8520, or Carlos Sanchez, Senior Project Manager, at 214/665-8507. Other site-related documents are maintained in EPA's general RSR Site file and are available for public review at EPA's Region 6 office located at 1445 Ross Avenue in Dallas, Texas.
